Career Objective

Aspiring Python and Django Developer with hands-on experience in building full-stack web applications using Django and MySQL. Strong foundation in OOPS, DBMS, and Data Structures, seeking an entry-level software development role to apply problem-solving and backend development skills.

Technical Skills

- **Programming Languages:** Python, Java, SQL
- **Database Technologies:** MySQL, SQLAlchemy, Pydantic
- **Backend Frameworks:** Django, FastAPI, DRF, Django MVT, Rest APIs
- **Technical Subjects:** OOPs, DBMS, Data Structures and Algorithms
- **Web Technologies:** HTML, CSS
- **Tools:** Git, GitHub, Postman, VS Code,

Soft Skills

Leadership | Team Collaboration | Adaptability | Analytical Thinking | Problem Solving

Education

Bachelor of Technology in Artificial Intelligence and Machine Learning **2022-2026**

Technocrats Institute of Technology and Science, Bhopal

CGPA: 8.41 [Up to 7th Semester]

Higher Secondary School **2020-2021**

Govt H S School, Kaudiya, Umaria

Percentage: 94.20

High School **2018-2019**

Pankaj High School, Kaudiya, Umaria

Percentage: 94.20

Experience

Python Developer Intern | IDEVIFY Solutions Pvt Ltd | Remote (Nagpur) | Feb 2026 – Mar 2026

- Assisted in developing and maintaining backend applications using **Python**
- Supported development of **REST APIs** and server-side logic under senior developer guidance
- Worked on integrating backend services with front-end components
- Performed database operations using **MySQL, PostgreSQL**
- Gained hands-on experience with Python frameworks such as **Django, and FastAPI**

Projects

RapidRoom | Full-Stack Room Rental Platform | Tech Stack: Python, Django, MySQL, HTML, CSS

- Developed a **full-stack web application** using Python and Django (MVT architecture) to manage room rentals.
- Designed and implemented **RESTful APIs using Django REST Framework** (DRF) with JSON-based responses.
- Built **CRUD APIs** for room listings supporting add, update, delete, and view operations
- Implemented **authentication and authorization** using Django Auth, role-based access control (RBAC), and permission classes.
- Integrated **search, filtering, ordering, and pagination APIs** to improve data retrieval performance.
- Utilized **Django ORM with MySQL** for efficient **database design, query optimization, and data integrity**.
- Implemented **serializers, API validation, and exception handling** to ensure reliable API responses.
- Followed **REST principles, HTTP methods (GET, POST, PUT, DELETE)**, and proper **HTTP status codes**.

Certifications

- IBM-certified Java Fundamentals professional.

Achievements

- Solved **250+** problems on LeetCode and **700+** problems on CodeChef
- MySQL – Intermediate (3★ HackerRank)
- Secured **3rd** Position in the Logo Revamp Contest organized by Guised Up
